

2. Supervision, Ratios & Environment

Ensure adequate Adult / Child Ratios:

Good practice dictates that a leader should try to ensure that more than one adult is present. This will help to ensure the safety of the children as well as protect adults.

Adult / Child Ratios:

- Will depend on the nature of the activity, the age of the participants and any special needs of the group, a general guide might be 1:8 for under 12 years of age and 1:10 for over 12 years of age.
- There should be at least one adult of each gender with mixed parties.

Environment:

- Away trips will need higher rates of supervision and these should be checked out with Irish Squash or organiser, children and young people should be supervised at all times.
- Avoid adults being left alone with young participants, if a leader needs to talk separately to a participant this should be done in an open environment, in view of others.
- Respect the privacy of young people while changing, leaders may only need to enter changing rooms where the participants are very young or require special assistance.
- When necessary, leaders should supervise in pairs or seek assistance, it is the safety and welfare of the participants that is of paramount importance.
- Leaders should not be left alone with young people at the end of a training session. Clearly state times for start and finish of training and/or competitions.
- If late collections occur leaders should remain in pairs until participants have left.
- It is the responsibility of parents/guardians to make arrangements for collection of young people, it should be made clear that the club is responsible for only club activities.
